

Student FAQ's

Q. What is the manage application function?

A. The manage application bar helps you to track the various phases, steps, and tasks in the college application process.

Q. How do I search for colleges?

A. Go to the Schools Tab, and click on Search Profiles. You can build a search using specific criteria (such as major, state, sport, location, etc.). You can save your searches so that you can easily access them later.

Q. How do I email my guidance counselor through Connect!?

A. Connect! has its own internal email system for communicating with other members of the Connect! community. You can get to your Connect! mail by clicking on C!Mail in the upper right hand corner of your screen. Click New Message, and then contacts to access your guidance counselor's user name. Enter a subject and your message, and click send message to send the message.

Q. What do the red and green boxes mean on my college list?

- A. Connect! categorizes your scores and preferences into red and green distinctions:
- Scores: If the information for a college appears highlighted in green, your score meets or exceeds the average scores for students accepted by the school. If it is red, it means your score is lower than the average score for accepted students.
 - Preferences: If the information for a college Location, Size, or Setting appears highlighted in green, the school meets your preferences. Red means your preference does not match.
